MONDAY, SEPTEMBER 26, 1887
SIX-PAGE EDITION.

MR. GEORGE ALT'S net profits this year on potatoes, onions, beets, cabbage and other vegetables grown on less than 20 acres of land are \$3,500. \$175 per acre clear profits would make pretty good boom land even at Riverside, Los Angeles or San Jose. Mr. Ross realized about \$700 this year on one and three-fourths acres of land in melons. This is a gross income of \$400 per acre. But \$175 net profit per acre would pay ten per cent. interest on \$1,750 invested. Now we do not say that land in this valley is worth \$1,750 per acre nor one half of this amount; but we do say that our land is as fertile as that of any land in California; we do say that such statistics as these, collected and published would bring into this valley thousands of immigrants in search of homes.

EVERYTHING begins to assume shape and comeliness in State Fair matters and it is believed that there will be a large attendance through this week. The Comstock mines close down to-morrow and Carson business houses close on Wednesday so that the people of the respective towns may in a body attend the Fair. On the part of both the mine owners of the Comstock and the business men of Carson this is a very graceful compliment to our State Fair. Reno also appreciates the favor and will do all she can to make welcome the guests from our sister towns.

WHAT is found in to-day's issue and much that will appear in succeeding issues on Reno, and under the head of "Nevada" has just been collected by Professor G. D. Hinds. The copy, at quite an expense, was paid for by this paper and is our own to use as we please. Some persons may have been complimented more than their deserving, some less; we have accepted the copy almost as received and trust it will be found to be correct and be read with interest.

ONE of the peculiarly striking features of this State Fair is that the paper having the largest circulation in the State, the paper that has spent hundreds of dollars more than any other one paper in advertising Nevada's agricultural interests and the Fair, can get hardly a favor out of the management. The GAZETTE has excellent "striking" qualities, too, and knows just where to strike, but for the present it grins and bears it.

THE GAZETTE regrets that Proprietors Cassidy & Skillman have found it necessary to suspend publication of the *Eureka Daily Sentinel*. Through its existence of 17 years it has been ably edited and has represented well the interests of Eastern Nevada. May prosperity attend the *Weekly Sentinel*, which will continue publication as heretofore.

THE Government clerk is the attache of a politician and, says an exchange, is pitchforked into a place without demonstration of merit or fitness, and kicked out of it regardless of evidence of both. Aspiring Nevadans are fortunate(?), they are never pitchforked in, hence never kicked out.

"Red headed Powell" is the disrespectful way a Democratic paper speaks of Ohio's Democratic nominee for Governor; red-faced opposition is the way a GAZETTE representative speaks of his treatment shown him on the part of a prominent State Fair official.

AKRON, Ohio, makes 60,000,000 matches daily, 1,000 times as many matches as there are people in the State of Nevada, and three times as many matches as there are dollars invested in cattle in this State.

It is said that a young man in Iowa lost his mind from smoking cigarettes. In one respect a cigarette fiend in Nevada is favored, for he has no mind to lose.

PROFESSOR HOGG, of Texas, announces that he is an old-line Democrat and in favor of the Federal Government taking control of the public schools.

THE most ambitious of all the feathered tribe is a sagehen who aspires to be a sage politician.

THE Cattle Trust scheme is rarely mentioned now. The range press killed it.

NEWS OF THE DAY.

(PRESS DISPATCHES TO THE GAZETTE.)
Californians Abroad.
 St. Louis, Sept. 25.—The Pacific Slope swooped down upon the town in thirty-three cars, 1,500 strong, from California, and a hundred more from Oregon, Washington Territory and Alaska. They come with peaches, fruits, wines, and the grapes of the golden land and, in the great hall of armory are preparing to exhibit, as the Knights Templars did last year, some of the blessings of their fertile country. Within a block of the armory their tents shelter 800 men to-night. As the Californians came 1,500 strong, instead of 800, as was at first promised, and as each other State sends notice of increased attendance, the number will swell to more than 50,000. As these men arrive they will be met at the depot by a reception committee, who will send one man with each post to direct them to their quarters. Tents and rooms are prepared for all, no matter what the number.

The Racing Yachts.
 New York, Sept. 25.—The Volunteer was towed into the water from the South Brooklyn dry dock this morning in the presence of several hundred people, and as she floated the crowd raised a hearty cheer which Captain Hoff responded to by raising his cap and smiling happily. The sails were soon bent and the counterboard hung. Final preparations also completed on the Thistle. Captain Barr said he was praying for a good and fresh breeze. "The papers say the Volunteer can beat in a stiff weather," said he with a wink, "and I hope we will have it just that way."

Mysterious Shooting.
 Paris, Sept. 25.—*Temps* publishes a telegram from Epinal, saying a Lieutenant of Dragoons, accompanied by a gamekeeper, while out shooting at Raon-sur-Plaine, near the frontier, was fired at by invisible marksmen in German territory. The gamekeeper was killed and the Lieutenant's thigh bone was fractured. The surgeons affirm that the shots were fired by the military and say that the Lieutenant's thigh will have to be amputated. It is believed the shots were fired by custom officials.

George Francis Train.
 New York, Sept. 25.—George Francis Train spoke for the first time in many years at Webster Hall this evening, in favor of the condemned Chicago Anarchists. He talked in a rambling manner for two hours, most of the time not referring to the Anarchists in any way. Johann Most followed him, but was careful not to offend the police present. Mr. Train said he would speak every night for the Anarchists families' support until November 15th, the day of the execution. About \$200 was realized to-night.

Crack Ball Players Coming.
 St. Louis, Sept. 25.—Arrangements were made here to-day for a grand California baseball trip. Mr. James Hart, of Milwaukee, representing Chicago and Philadelphia clubs, and Mr. Geo. Munson, of St. Louis, representing the St. Louis Browns, entered into a formal agreement by which the Chicago, St. Louis and Philadelphia clubs will play a regular schedule of games during the Winter at Central Park, San Francisco.

Black and White.
 Houston, Sept. 25.—Owing to the report that 200 negroes are under arms in Matagorda county, and that the Sheriffs of Matagorda and Hickley counties are moving on them with large posses of white men, the Houston Light Guard this morning received orders to leave on a special train for the scene. The uprising of negroes has its origin in the murder of a negro constable, who had a warrant for a white man.

Cardinal Gibbons.
 Baltimore, Sept. 25.—Cardinal Gibbons, accompanied by Rev. Dr. Crappelle, of Washington, left Baltimore this morning on the Pennsylvania Railway for West Portland, Oregon, which is the Cardinal's objective point, where he will confer the pallium on Archbishop Gross, but he will stop en route at Chicago, Milwaukee and St. Paul.

Afghanistan Affairs.
 London, Sept. 25.—Advices from Cabul, the capital of Afghanistan, under date of the 18th state that Abdul-Khan, commander of the Zaidind-war army of the Ameer, fled with 2,000 soldiers and went to join Ayoub Khan and safely reached Kohjourn in Northern Beloochistan, on the 12th instant, Ayoub being there at that time. The Ameer of Afghanistan, the same advices state, was at Saghoan.

A Fruitless Raid.
 Dublin, Sept. 25.—Balliffs, accompanied by a body of police, seized a number of cattle belonging to a family named Hurlly at Kilbarry to-day. A crowd attacked the officers with stones and pitchforks. The police charged their assailants with fixed bayonets and bayoneted several, but they were obliged to retreat without the cattle.

Jake Sharp's Case.
 New York, Sept. 25.—The Sharp case can now be appealed to the Court of Appeals, but Sharp will be sent to Sing Sing immediately.

The Cholera Patients.
 New York, Sept. 25.—Two patients died last night and one this morning. Twenty-three of the passengers are now very ill. The others are improving.

Truckee Wins.
 The game of baseball between the Sierra City and Truckee clubs came off at Truckee yesterday. At the end of the third inning the score was 9 to 0 in favor of the Sierra boys. At this juncture the Truckee boys pulled themselves together, and played with such good effect that at the end of the ninth inning the score stood 11 to 12 in their favor. Donnelly, of Reno, was catcher for the Truckees. Another game between the same clubs for "big money" is on the tapis.

A Fair Record.
 Since the commencement of the State Fair last Wednesday Justice Young has sentenced nine offenders, one of whom was adjudged guilty of shooting a pistol in the streets and fined \$14, which was paid; one of smoking opium, one of petty larceny and six drunks. Of the last named one was a woman.

STATE NEWS.
A Digest of the Day's Delays Throughout the State.
Humboldt County.
 [Silver State, Sept. 24.]
 At the meeting of the Board of County Commissioners, bounties on sculpin, as figured by County Clerk Gilson, were allowed as follows: Rabbits 15,300, \$219 50; coyotes 252, \$441; wildcats and lynx 42, \$72; squirrels 140, \$2 10; total bounty, \$1,184 00.

Farmers at Big Meadows are about through threshing and their granaries are pretty well filled. They had a bountiful harvest, and if they could dispose of their grain at a cent and a half a pound the business would be profitable.

Peter French ships thirteen cars of fat steers to San Francisco to-day. Thursday Colonel Hardin shipped nine cars of steers to the same destination.

Charles McDeld is plowing at the Sonoma ranch in Grass Valley, and he says he never saw the ground dryer than at the present time.

Elko County.
 [Tuscarora Times-Review, Sept. 22.]
 The Murphy ledge in Ophir Canyon, Nye county, lost in 1867, has been found again in a crosscut on the 200 level. It is alleged to contain a breadth of 2½ of one assaying \$200 per ton.

From 700 pounds of Dakota red potatoes planted in Humboldt county last year were produced seven tons.

[Free Press, Sept. 24.]
 Nevada has produced \$352,000,000 of silver.

Quite a number of Elkoites expect to go down to Reno next week. The Fair is proving a grand success, and many wish to attend during the closing days.

The cases of Griffith and Lewis, indicted for murder, will come up for trial Monday at Elko. There will be a large attendance of witnesses from Carlin and Bullion.

Storey County.
 [Report, Sept. 24.]
 A physician of this city is authority for the statement that there is more sickness prevailing on the Comstock at present than at any previous time in the history of the lode.

Sister Josephine, of St. Mary's Convent, whose serious illness was mentioned in the *Report*, is convalescing.

Misses Dolly McCone, Tessie Ryan and Maggie Cavanaugh leave for the State Fair to-morrow evening.

Misses Annie and Nellie Dugman, of St. Mary's Convent, are now in Anaconda, Montana, filling important positions.

Seems to have come at last, and from all

fore in the history of the State has the desire
been so great to obtain real-estate among us;
the daily transactions are enormous, and values
are constantly going higher. Small fortunes
are being made right and left by those with
Cash to invest. The present boom in real-estate
is only a forerunner of the boom about to
take place in

Attention, Stockmen!

DR. FISHERMAN'S CARBOLIZED 'ALKALINE LOTION IS TO-DAY AHEAD
of all other preparations for the mercurial cure of STICK. As an external remedy
it will be found unequalled for application to Sprains, Sores, (new or old), Alkali
Sores, Bruises, Galls, Swellings, Scratches, Thrush, Rheumatism, Mange, Itch and
Skin Diseases. It will strengthen and make straight weak knees and ankles. It is
invaluable as an internal remedy for coughs, colds, congestion or fever, and we sin-
cerely believe it is just the right remedy to use during the BRANDING SEASON, as
it will at once take out the fire and seal the wound over. We believe it will pre-
vent the marks and brands from becoming fly-blows. This lotion does not contain
tar-pentine; consequently does not torture the beast for hours. Price, ONE DOLLAR
per full quart bottle, which makes half a gallon of lotion. Please give it a trial.

Valuable Testimonials.

crop alone, besides a heavy crop of
onions, beets, cabbage, and other sta-
ple vegetables. Mr. Alt's entire veg-
etable crop will be worth not less than
five thousand dollars. The expenses,
perhaps, may reach fifteen hundred
dollars, leaving the net returns on less
than twenty acres of land, three thou-
sand five hundred dollars. Mr. Ross
gets similar results from his potato
production, and is, in addition, an ex-
tensive producer of squashes, pump-
kins and melons, for which he finds a
ready market in Reno, at remunerat-
ive figures. But the home market is
not the only vegetable market. Hun-
dreds of thousands of pounds of pota-
toes go every year to California, Ariz-
ona, and elsewhere, three hundred to
four hundred car-loads having been
shipped out of the State last year.
The people here take California veg-
etables only until their mature. This
year, California fruits will find a mar-
ket here through the year, there being
a failure of the fruit crop in this sec-
tion. Apples, pears and plums, and
all the hardy fruits do well, ordinarily,
in this locality.

MELONS.

On the Ross ranch as many as forty
tons of these juicy delicacies were pro-
duced in one season, on an area of 1½
acres, which, at the mean price of
\$2 50 a dozen, brought the sum of
about seven hundred dollars. The
Hubbard squash, which the same gen-
tleman raises in great profusion, is
worth \$2 to \$3 a dozen. How does
such a remuneration of labor compare
with the Mussel slough region, in Tu-
lar county, California, where you can
buy all that a span of horses can pull
of these mammoth vegetables for one
dollar.

THE POPULATION

Of the entire valley, including that
of Reno, is not far from five thousand.

RENO.

This thriving town of more than
4,000 people, named in honor of Gen-
eral Reno, one of the country's early
celebrities, is fast approaching the di-
mensions and the importance of a city.
It has augmented its population at an
average rate of 225 souls per annum,
for the last decade, and will be 8,000
to 10,000 strong at the close of the
next ten years. It scarcely needs mu-
nicipal regulations; but, doubtless, the
people will rank it in the sisterhood of
cities as soon as that classification is
seen to be of any advantage.

PUBLIC MORALS.

It has rarely been the privilege of
the writer to witness a more quiet, or-
derly, law-abiding community, of the
same number of inhabitants, than Reno.
During three weeks of commingling
with the Renoites, we do not remem-
ber to have seen a single drunken man,
or any breach of the peace, or to have
heard of a quarrel. Ladies in groups,
and sometimes singly, walk in the
evening about the car landings and the
public streets and other promenades
with perfect security; and it is said
that there has been in the histories of
the place but a single attempt on
the part of man to do violence to the
laws of chastity, and that such a pen-
alty was administered to the offender
in that instance, as to deter others
from making any similar attempt.
But, with all this feeling of safety to
the body social, the laws of vigilance
are not, and will not be, relaxed.
There is a regular night-watch force
that will be increased and systematized
as the needs of the town may demand.
The town is regularly laid out in
streets and alleys, but the prominent
business centers are Virginia street
and Commercial Row, situated to each
other as the two parts of a cross. The

LOCATION.
This institution, founded in 1866, is situated near the village of San Mateo, which
is noted for its beauty and seclusion; also for the equality and healthfulness of its
climate. It is within twenty miles of San Francisco by rail, and easily accessible
by carriage, and therefore particularly suited to parents in the city who wish their
sons within reach in case of emergency. Trains of the Southern Pacific Company
frequently, allowing visitors to go and return several times daily.

DISCIPLINE.
The Principal exercises a fatherly care and discipline over the pupils, seeking to
influence and kindly lead rather than drive. The military discipline is used in a
modified form, sufficient to secure regular exercise and erect carriage by drill, and
habits of promptness and obedience, with orderly movements in the school-room.
Experience has proved that the military drill, thus modified, is beneficial and not
objectionable. Particular attention is given to the morals and manners of the
pupils by both principal and teachers, it being considered an indispensable part of
their training to make them gentlemen as well as scholars. This is the atmosphere
of the school.

SESSIONS.
The school year is divided into two sessions of twenty weeks each. The Easter
session begins about January 5th; the Trinity session about July 20th, with a sum-
mer vacation of eight weeks, and a winter vacation of four weeks. Pupils will be
received at any time.

THE BANCROFT COMPANY

FOUNDED 1856. INCORPORATED 1887.

THE HISTORY BUILDING

Upon the site of the Bancroft Building, Market Street, burned April
30, 1886, has been erected the History Building, one of the most elegant
and substantial edifices in San Francisco. Its architecture is
original and artistic, and the structure monumental, being so named
in consideration of the historical efforts of Mr. Hubert H. Bancroft.

THE HISTORY COMPANY

(Founded 1882. Incorporated 1886)

Organized primarily for the publication of the Historical Works
of Hubert H. Bancroft, The History Company, occupying premises
upon the second floor of the History Building, does a general book
publishing business, acting at the same time as general agents for
strictly first-class Eastern subscription publications.

THE BANCROFT COMPANY

H. H. BANCROFT, N. J. SPOKE, W. B. BANCROFT, F. A. COLLEY, and T. A. C. DORLAND, all formerly
connected with the house of H. H. Bancroft & Co., have incorporated under the name of The Bancroft
Company, for the purpose of carrying on a Wholesale and Retail Book, Stationery, and Printing
Business, with Agencies of the leading American and European Manufacturers. They have purchased
the entire establishments of W. B. Bancroft & Co., and A. L. Bancroft & Co., stock, outstanding
accounts, agencies, and good will, and have assumed the liabilities of the same. Places of business:
The History Building, Market Street; Printing Office and Manufactory, Donahue Building, First
Street. It is the purpose of this Company to conduct its business upon a high plane of respectability,
efficiency, and popularity, second to none in the United States. The several departments are thoroughly
systematized, and conducted by able and gentlemanly managers. It will be their earnest and constant
effort to make the place an attractive rendezvous for all lovers of books, and all interested in novelties
and the latest styles of goods in their line. Among the many specialties may be mentioned Fine
Stationery, Artistic Printing, Engraving, Wedding Invitations, Piano, etc., etc. All the Popular
Books promptly received as published.

VAULT REFRIGERATOR. In the erection of our new building, spacious vaults have been constructed
absolutely fire-proof, dry and secure. We are prepared to receive, at a reasonable charge, boxes of
silver-ware, trunks containing valuables, and other articles, to which the owner can at all times have
access. Out-of-town patrons can send us their valuables with every confidence that the strictest care
will be taken of them.

heat by day, and from chilly

In the mid-summer month, July,
the average temperature at mid-

MOTOR RAILROAD

From Stockton. The transpor-
tation facilities from Stockton are
equal to those of any interior town
in California, having two lines of
railroad to San Francisco on the
through line for the East, both by
way of Sacramento and Los An-
geles. There are several other smaller
railroads running in the interior.
In addition to these railroad facili-
ties, there are two lines of steam-
ers plying daily between Stockton
and San Francisco; the fare being
only 25 cents for a ride of 120
miles through the most beautiful
scenery in the country.

THE "AUTOMATIC" AS COMPARED WITH OTHER SEATS.
The illustration shows the great superiority of the Rear-folding Seat over all others in Durability, Economy of Space, and Tendency to induce a Healthy Position. The cuts were made from Photographs of the desks themselves, and are, therefore, perfectly accurate.

CONTRACT FOR SUPPLYING SAN FRANCISCO SCHOOLS LATELY AWARDED TO THE "AUTOMATIC."

From photograph of the Automatic Rear-folding Seats; in use over five years.

The Automatic Seat, being supported in front, can NEVER SAG, and as the seats fold as the pupils rise, and remain folded out and of the way until they take their seats again, the desks are set much nearer together. The above are set the right distance apart, securing an EASY, GRACEFUL and HEALTHFUL POSITION of the pupil.

From photograph of the best (?) Hinged Seats; in use less than five years.

One great objection to hinged seats is that they wear so as to become NOISY in folding, and SAG, as the above, becoming uncomfortable, or totally unfit for use. The above desks are set the "regulation" distance apart, which distance, together with the sag of the seat, induces the AWKWARD and UNHEALTHFUL POSITION of the pupil.

Anyone buying desks without considering the Automatic, will surely regret it. Send for Circulars and Price Lists, saving money.

NEVADA—Continued.
sidewalks of the business streets, excepting here and there a few feet of rock pavement, are built of pine planks or boards, the softer portions of which are so worn away, leaving the numerous knots standing up prominently, as to render walking on them very uncomfortable. These walks ought to be concreted or smoothly paved. As they are their unsightly appearance detracts from, rather than allures to, business.

SEWAGE.
Extensive operations and excavations are now being made, by which Reno will have a system of sewerage not excelled, if equaled, by any in the state. The town site declines just enough to the rapid Truckee, which, at low-water mark, lies six to eight feet below its banks, to insure the best possible results respecting this part of Reno's sanitary facilities.

ARCHITECTURAL ADVANCEMENT.
There is considerable progress of a permanent character in this direction. There are from 15 to 20 edifices now in course of construction, of a residential or business character, that will cost from \$2,000 to \$12,000 each. The town needs no boom, and wants none. Its natural, sure and steady, and healthy growth, are assured. There are places on the Pacific coast that need the hot-house stimulus of business, and must have it, in order to live and grow, but Reno and surroundings is not one of them. A combination of favorable elements in soil, climate, irrigation, and topography insure the ultimate prosperity of this region.

Everything is steadily taking on the character of permanence and durability, and the success of this locality is, and will be, exactly commensurate with the extent of enlarged facilities in irrigation available, and with the utilization of the thousands of acres of valley and hillside lands, that are now a fruitless waste, for want of the essential element. Three things, respecting this highly fertile sage brush region are certain, viz.: That water is the one thing needful; that capital is indispensable to procure the ample available supply, and that the investment will return lucrative dividends.

BUSINESS DIRECTORY.
Reno sustains the following trades and business enterprises, viz.: Ten general merchandise, seven grocery, four drug, three variety, six fruit and vegetable, and two book and stationery stores; ten hotels, six restaurants and several bakeries; two tin shops, two hardware and three furniture stores; five blacksmith and wood shops, two shoe shops, three harness shops, three barber shops, three jewelry shops, and two paint shops; four livery and feed stables; one planing mill and general manufacturing of everything architectural, with box factory, etc.; two lumbering businesses; one foundry and machine shop; one gas manufacturing; one emporium of agricultural and mechanical implements and machinery and vehicles; one State Fair Pavilion; two banks; one electric light establishment; one post office, and various telephone and telegraph offices, with a Wells Fargo office; six physicians; several lawyers and law firms; one city dairy and milk ranch; the immense reduction works; the public school; the Academy for young ladies; St. Mary's College; the State University; six churches; the Insane Asylum for the state; about 40 saloons, and two marble yards.

PERSONAL REFERENCE.

THE STATE FAIR.

FIFTH DAY'S DOINGS.

Another large influx of visitors—Senator Stanford's herd of magnificent Holsteins on the Fair grounds—The Races—A Fine Program for To-morrow.

The beautiful weather this morning caused the principal thoroughfares of the town to be crowded by 11 o'clock with people anxious to go to the Fair grounds to enjoy the program arranged for the day. Hackmen did a good business and are confident of doing still better during the week.

The morning train brought a large number of visitors from California, who have been doing the State Fair at Sacramento and are anxious to enjoy the sights and sports of the Nevada Fair. Several belong to the sporting fraternity.

Said one of the Directors of the State Agricultural Society to a GAZETTE reporter at noon: "We are more than satisfied with the State Fair thus far. The large crowd present shows it is generally regarded a success. I am glad to get that we have succeeded in inducing the large live stock owners of the State and coast to make the creditable display they have. The speed program has given satisfaction, and that arranged for the week promises to draw a still larger crowd."

Senator Stanford's magnificent herd of 22 Holsteins arrived from Sacramento yesterday.

Several notable horses arrived this morning, among them Sensation, Avondale and Susie B.

The one and a quarter mile dash this afternoon between Theodore Winters' Alcatraz and W. B. Todhunter's May Blossom was won readily by the former; time 2:28 1/2.

The first heat of the three-eighths mile and repeat running race between Singleton's Kitty, Nelson's Pat and Faylor's Rock was won by Rock, with Kitty second and Pat third; time, 37. Pat was withdrawn on account of lameness.

The half mile bicycle race between Eddy Graff, H. Upson, Claud Jacques, L. Wintermantle, and C. M. Fassett was called. Jacques won, with Fassett second, Wintermantle third, Upson fourth and Graff fifth.

Among those on the grand stand this afternoon were Judge and Mrs. Belknap, of Carson; Colonel and Mrs. Thomas, of Suto; State Senator Westerfield, of Dayton; State Senator Kaiser and wife, of Churchill; and ex-Congressman Cassidy.

The intervals between the races were long and tedious.

Fair Notes.

Complaint is made that the races at the Fair grounds are being "jockeyed," and many visitors of sporting inclinations are wary of investing in pools.

Exhibitors in the horse department of the live-stock department should procure cards from the Secretary on which to write a description of the animal exhibited. This done, the cards should be placed on the doors of the stables so that visitors will know what animals they are inspecting.

It is a noticeable fact that the losers are the only ones who growl at the manner in which the races are conducted.

A. T. Rice has on exhibition, Orau, a two-year-old, of Plumas stock.

Arthur C., a son of Nutwood, the famous stallion (2:18 1/2), occupies a prominent stall in the live-stock department. His owner, William Caughlin, is in charge.

A. J. Smith, of the Meadows, has a twenty-one-year-old Morgan mare on exhibition.

Tom Herman, of Wadsworth, has on exhibition a matched carriage team, Blackbird stock, of a beautiful iron-gray color. They are two-year-olds, and are beauties.

Exhibitors for the Pavilion continue to arrive. Several merchants from Sacramento, among them T. H. Cook, the grocer, are making fine displays. Several additions have been made to the display of Nevada fruits, vegetables and grains.

To-morrow and Wednesday will be the gala days of the season. The following program has been arranged for to-morrow: Indian pony race; balloon ascension; ladies' tournament; stock parade; three-in-five trot for \$300 between Wallace G. Victor and Colonel Hawkins; a three-in-five for three-in-five class, for a purse of \$300; six entries, and two other races. A large number of Comstock miners have arranged to be present. On Wednesday, for which day an equally good program has been decided on, the business men of Reno and Carson will close their establishments.

A Lively Runaway.

An exciting runaway occurred Friday afternoon about half-past 5 o'clock. A pair of horses attached to one of Aitken's trucks became frightened, and started down Sierra street at a pace that would do credit to some of the race stock at the track. All went smoothly until Hymers' stable was reached, where they struck a wagon, tearing out the pole. The runaway kept on, however, to Front street, up which they turned at a breakneck gait. They crossed the bridge without heeding the injunction: "Walk your horses," etc., and continued their run uninterrupted till they reached home—a mile east of town.

Death of Lee Winnie.

Lee Winnie, after a short illness, died yesterday morning at his home in Carson City. Lee was a young man about 28 years of age, with bright prospects, and whom the aged and widowed mother regarded as her sole dependence. Captain Winnie, her husband, who was well known in Western Nevada, died about two years ago. The GAZETTE extends condolence to the bereaved mother.

Mr. and Mrs. Marshall Robinson, of Carson City, are taking in the Fair to-day. Mr. Robinson was formerly publisher of the Index but is now proprietor of the Index-Union job office.

REVIEWS.

Local and General News.

A very "Fair" day. "All aboard for the track!" is the prevailing cheer.

The DAILY GAZETTE free through Fair season.

Our sidewalks are jammed with pedestrians every evening.

No such advertising medium in the State of Nevada as the GAZETTE.

An effort should be made to give the Comstock miners a good time to-morrow.

Much grain is heating in the sack in Oregon, a result of the recent rains.

A big soapstone quarry has been found at Grass Valley, Nevada county, Cal.

The cable cars from Grass Valley to Nevada City are to be run by water power.

The Board of County Commissioners met to-day as a Board of Equalization.

Under "Nevada" to-morrow will appear something of interest to the business men of Reno.

The GAZETTE would like to get one day ahead for publication the program of each day for the Fair.

J. J. Brown, of Pineville, Oregon, was sandbagged and robbed of \$750 in Bear Valley, Cal., a few days ago.

The output of the Drum Lummon mine, Montana, for August was \$175,000; cost of production, \$57,000.

The two employees of the gas works who were asphyxiated Friday evening have recovered and returned to work.

The gambling scene in "After Dark" will surely draw a great house, for this is a great drawing card for the people now in Reno.

A Dayton rancher has produced this year a potato which weighs seven pounds and a spear of celery four feet high which weighs 37 pounds.

There is quite a large delegation of anglers in attendance at the Fair. They troll not for the toothsome trout, but are in untiring pursuit of "suckers."

On Saturday last James Nicholls, of Mason Valley, bought of E. C. Hardy a thoroughbred Norman stallion, one of the best in the stud on Hardy's ranch at Toano.

"Outside money makes the game! Who'll tap this quarter or any portion of it?" is a conundrum which one hears bellowed from crowded saloons every night.

The visiting Comstock miners here to-morrow are invited to take a look through the printing establishment of the DAILY GAZETTE and STOCKMAN.

It is rumored that Judge Cook, aged father of Mrs. Colonel John D. Mills, formerly Matron of the State Orphan's Home, yesterday had a stroke of paralysis at Carson City where he is staying.

Mr. Stevens says he has realized as much as \$240 per acre on a potato crop raised on his ranch east of town; as many as nine tons of alfalfa per acre, for which, at \$7 per ton, he has realized \$63.

The recent interview with White-law Reid obtained through a GAZETTE reporter and printed in these columns was copied by numerous newspapers throughout the country, among others the New York World.

Lyon County Times: The Reno GAZETTE is a boomer. It is printing 50,000 extra copies during Fair time and running a supplement containing a condensed history of Nevada and a wholesome looking lot of "ads."

Quite a number of people in attendance on the Fair are looking for ranch properties in the vicinity of Reno. Those who have property to sell will do well to call on real estate agents Preble & Young at the GAZETTE office.

Yesterday morning there went East on the express Mrs. Hooker, daughter of Senator W. M. Stewart, and two children, Mrs. Aldrich and daughter, Miss Letitia. Miss Letitia, a talented lady and promising actress, is under engagement with Dayley's company at New York City on the first proximo.

Mrs. Stewart accompanied her relatives as far as this place.

An Eastern capitalist remarked on Virginia street yesterday: "I know of few, if any, towns in California the size of Reno where so many improvements of a substantial character are going on as here. Town lots sell better in several small towns I visited, but the new brick business houses and handsome dwellings here tell the story we all like to hear."

A Mystery About to be Solved. A dispatch from Hawthorne says that J. N. Woodhouse, who was murdered near Bishop Creek six months ago, was a successful mining man, and a soldier in the Union army. No efforts have been made by the authorities to ferret out the criminal and bring them to justice or to recover the remains of the missing man. By concerted action of loyal citizens and aid of higher authorities other than local, link by link the chain of proof is being carefully wrought, and it is but a matter of time when the grapple will be complete.

Carson Day.

All the principal merchants of Carson, as well as the banks, express office and newspaper offices, will close their doors on Wednesday next and attend the Fair en masse. They have extended an invitation to the good people of Douglas county to join them on that day, which, it is hoped, they will accept. Come and bring your sisters and your cousins and your aunts.

Death of Seth Clifford.

Seth Clifford, better known as "Spider," died in Reno on Saturday night after a short illness, of pneumonia. He was well known all over the State as a member of the sporting fraternity. The funeral took place this morning from Sander's rooms and was largely attended. He was a native of Ohio, aged 55 years. He leaves a wife in Montana and a son in Reno.

"Spirit Manifestations" Last Evening.

The "spirit manifestations" of Miss Kate Eddy at the Nevada Theater last evening disappointed the greater portion of the large audience present. "Miss" Eddy, as she was termed on the large circulars distributed throughout town, served merely as an assistant to the principal (who spoke of her as "my wife"), except in the last act, when she posed as a spirit and a few moments later appeared in the auditorium breathless from having run around the side of the building to the front entrance. Some of the tricks performed were clever; most of them were old, and not confined to what is, strictly speaking, so-called spiritualism. As usual at all such entertainments, they occurred in a cabinet with drawn curtains, where the principal sat with his hands and feet tied to a chair. Bells rang and were thrown out of the top of the inclosure and other like tricks performed that were old to many of the audience 10 years ago. A message was received during the evening from Ben Franklin, who was glad to see so many present, and also an incorrect quotation from Shakespeare. About the only feature of the performance worthy of praise was the dexterity displayed.

After Dark.

To-night the celebrated Webster Brady Company will make their first appearance before a Reno audience. They will produce Dion Boucicault's greatest cyclorama of London life, "After Dark." This melodrama is full of startling situations and climaxes, the great railroad scene holds the audience spellbound; also the realistic gambling scene. Wm. A. Brady as Old Tom; Geo. P. Webster as Sir George Medhurst; Charlotte Tuttle as Eliza; Laura Biggar as Rose Egerton; Little Minnie as Topsy, with specialties in the gambling scene.

No. for Steamboat Springs. The water at Steamboat Springs is better this season than it has been for many years. It comes to the surface boiling hot. Visitors to the Fair cannot spend a day more pleasantly than by taking a ride to Steamboat and enjoying a bath. The swimming bath is in fine condition. The hotel accommodations are unsurpassed. Visitors can leave Reno on the regular morning train at 7 o'clock and return at 11 o'clock the same day or at half-past 7 in the evening. Steamboat is one of the most popular resorts in the State, and the prices are moderate.

The First National Bank. This Bank will close daily at 12 o'clock noon and open from 6:30 to 7:30 P. M. during the season of the Nevada State Agricultural Society, commencing Wednesday, September 21st and ending Saturday, October 1st (Saturdays included). By order of the Vice President.

C. T. BENNETT, Cashier. Reno, Sept. 20, 1917.

Ladies. In delicate health and all who suffer from habitual constipation, will find the pleasant California liquid fruit remedy, Syrup of Figs, more easily taken, and more beneficial in effects than any other remedy. It acts promptly yet gently on the bowels, kidneys, liver and stomach, and does not sicken or debilitate. For sale by Wm. Pinniger, Reno, Nevada.

Hanna, Swayne & Company. The attention of GAZETTE readers is directed to the advertisement of Messrs. Hanna, Swayne & Co. of Stockton and San Francisco, dealers in real estate, loans, mortgages, etc. The reputation of these gentlemen is first-class. They are experienced business men and worthy of confidence. In their line they are alive and energetic in keeping abreast of the times, dealing in nothing but first-class investments. Our business men who are looking for investments in California should address these gentlemen, who invite correspondence.

Boarding the Lion in his Den. The Methodist College for Northern California is to be located at Thermalito, the new colony near Oroville, and the Mercury is happy over the event. That section of country is booming, and the promoters of the colony have shown enterprise in capturing the college and its students. The young folks of Oroville and Chico can go to Thermalito and heaven at the same time.—Greenville Bulletin.

Colony Coming from Nevada. GRIDLEY, Sept. 23.—The largest land sale ever made in this vicinity was consummated recently. The tract sold consists of 2,000 acres of the richest land in this country. It lies along the Feather river. It went for \$100,000. The price paid being \$140,000. The purchasers are Preble & Young, proprietors of the Reno GAZETTE. They intend establishing a Nevada colony.—S. F. Chronicle.

Portraits! Portraits! The people of Reno and vicinity are now offered a good opportunity to have an excellent portrait made in an style or size and at very moderate prices. Attention is called to my display of pictures at Pavilion. Studio over Sander's shoe store, Virginia street, Reno. J. B. MONACO, Artist. Sept. 21st.

Everybody "Wanted." Hurray! for the first wholesale house in Reno. The White House has unfurled its banner to the breeze, and is ready to do a wholesale or retail business to the satisfaction of the most limited purse.

Coming. Mr. Johnson, of the firm of Anderson & Johnson, the well-known tailoring firm of Sacramento, Cal., will arrive here this week with complete line of samples of Fall and Winter suitings. The reputation which this firm enjoys in Nevada is sufficient guarantee that all orders entrusted to them will be satisfactorily filled. Wait for Johnson.

The Remington Type Writer.

The standard of the world. Has distanced all competitors.

Most of our best known lawyers and Stenographers have adopted THE REMINGTON, after unsatisfactory experiences with cheaper machines.

Has Many Imitators but no Equals.

Awarded First Premium Mechanic's Fair, Both in 1885 and 1886, Over all Opposition. To those who are considering the purchase of a WRITING MACHINE, we wish to say MOST EMPHATICALLY that the "REMINGTON" is the only Perfect and Practical Writing Machine on the market to-day, and which claim we are prepared to fully prove by actual test any time. We know we are offering the BEST ever made, and it is unfortunate that persons are sometimes induced to buy inferior machines, without knowing the real superiority of the Remington. We are often asked to exchange for alleged improved Writing Machines which mistle purchasers have found unsatisfactory; we are, therefore, emphatic in advising persons not to purchase until they have examined our latest improved machines.

—ALSO HEADQUARTERS FOR—
Type-Writer, Paper and Supplies. Special Cabinets and Desks.

THE STENOGRAPH SHORT-HAND MACHINE.

Simple, Accurate, Rapid.

EASY TO LEARN. PLEASANT TO OPERATE.

Can be learned in one-third the time the pencil system requires. All its work is uniform and exact. Its use is pleasant, and does not strain the eyes, hands or body. It can be operated in the dark as well as in the light, and upon the lap in a public assembly without attracting notice. The writing of one operator can be easily read by another. We claim that we have in the Stenograph a system of short-hand as rapid as any other; the most exact and uniform, the least tiresome in practice, and by far the most economical.

San Francisco business firms are adopting the Stenograph as fast as its advantages become known and scholars from our school are in demand. We have a long list of well-known Merchants and Firms who dictate their large correspondence to this wonderful little machine, and from which it is written upon Remington Type Writers, many of these having employed pencil writers previously for years. Address for catalogue.

Hon. T. E. Jones—My Dear Sir: I have just received your letter of the 14th. Dr. McLennan has wonderful power. God knows what it is. But he was of great and singular service to me.
